759 University of Houston - Clear Lake

University Overview:

The University of Houston-Clear Lake (UHCL) was authorized in 1971 by House Bill 199 in the 62nd Texas Legislature. The measure came in the aftermath of a 1968 report by the Texas Higher Education Coordinating Board, Texas College and University System, calling for a second University of Houston campus to offer upper-level and graduate programs for students in the Houston metropolitan area. UHCL is situated on 524 acres midway between downtown Houston and the historic port of Galveston. The campus is adjacent to the Lyndon B. Johnson Space Center and Armand Bayou Nature Center. UHCL serves an advanced technology economy by providing undergraduate, graduate, and professional programs for over 8,100 students. Since its inception in 1974, over 55,000 degrees have been awarded, with over 2,300 awarded in 2010-2011.

UHCL primarily serves the Houston-Galveston metropolitan area of Texas, which includes the Gulf Coast Community College Consortium consisting of Alvin Community College, Brazosport College, College of the Mainland, Galveston College, Houston Community College System, Lee College, Lone Star College System, San Jacinto College District, and Wharton County Junior College.

An important asset of UHCL is the Bay Area Houston region itself. UHCL is the intellectual cornerstone of this highly educated and fast-growing region in Texas. Through its strong partnerships with the community, UHCL provides advanced educational programs, innovative training, and research opportunities to the region. The Bay Area economic base rests on key industries including aerospace, petrochemical, international trade, healthcare, tourism, and boating and recreation.

In the 2011 session of the Texas Legislature, the University of Houston-Clear Lake secured legislative authority for downward expansion in order to offer freshman and sophomore level courses. UHCL is planning to admit freshmen and sophomores in Fall 2014. Currently, UH-Clear Lake is an upper-level university offering junior, senior, and graduate level courses. In response to requests from area school districts, UHCL as a four-year university would work closely with both area school districts and community colleges to enhance the K-16 pipeline to increase the college-going and college graduation rates in our region. Of the 100 largest metro areas, Houston ranks 57th in the share of its residents with college degrees (28.4%) while Austin and Dallas rank 8th and 35th, respectively. Special attention would be focused on first-time in college students as well as under-represented groups including Hispanic and African-American students. Within a 10 mile radius of UHCL, 28.98% of those 25 and over had achieved a bachelor's degree or higher although for the Hispanic segment of the population in this area the figure was only 11.59%. The University of Houston-Clear Lake will work collaboratively with other institutions in the University of Houston System to enhance student access and success.

In the 2013 session, UHCL will submit an exceptional item funding request for resources needed to assist in preparations necessary to meet the needs of the incoming freshmen and sophomores. This request is consistent with Legislative funding provided for the three institutions that are the most recent to transition from upper level institutions. They are University of Texas-Tyler, Texas A&M-Textarkana and University of Houston-Victoria.

Mission Statement:

The University of Houston-Clear Lake is a student-centered, community-minded, partnership-oriented university that offers bachelor's, master's and selected doctoral programs to enhance the educational, economic and cultural environment of the Houston-Galveston metropolitan region. UH-Clear Lake serves a diverse student body with special emphasis on undergraduate transfer, graduate and international students. The university offers the highest quality instruction and nationally accredited academic programs designed to develop the critical thinking, creative, quantitative, leadership and communication skills of students. The university conducts applied and basic research and engages in community and professional service that support both the economic development and the quality of life of the area. The university is committed to community engagement through partnerships with educational institutions, businesses, government agencies and nonprofit organizations.

759 University of Houston - Clear Lake

10% Biennial Base Reduction:

UHCL's FY2012/FY2013 appropriation reduction was so severe that hold harmless funds were allocated in order to limit the reduction % to that of other institutions.

Due to the proposed FY2014/FY2015 10% budget reduction of \$632,924, almost 89% would be funded from cuts in these hold harmless funds that have been used to support academic initiatives. Loss of funding would have a negative impact on academic programs, delivery of instruction, student access and success. This would include the loss of four academic programs and a 20% reduction to summer school course offerings. Institutional Enhancement funding supports the university's general operations including student services. We recommend that the current level of funding be maintained.

Funding Requests for Fiscal Years 2014 and 2015:

Formula Funding

The ability of the state's universities to fund their operations (particularly instruction), maintain affordability, increase student success, and provide the highly skilled workforce Texas needs to succeed depends upon the Legislature's commitment to fund higher education through base formula funding. The University of Houston-Clear Lake, as a first priority, requests an increase in the current level of funding in order to improve formula funding for core instructional and academic support operations. These funds would assist the university in increasing the college-going and college-graduation rates for the region served by UH-Clear Lake. The funds are especially critical given the changing demographics of the region and the number of first-generation college students. Additional funds via formula funding would help mitigate future increases in tuition. In addition to formula funding, funding for TEXAS Grants and state work study is critical to expanding access to higher education and maintaining affordability. Currently, qualified students can receive up to \$7,400 per year in TEXAS Grants. The state should strive to maintain and expand this level of funding since UHCL's behavior is to award a maximum of \$5000 in order to provide awards to a greater number of students. While various forms of financial aid have been increased significantly, the additional costs due to higher tuition and fees that students experience when they transition from a community college to a university is of growing concern.

Exceptional Items

Downward Expansion

During the 82nd Legislature (2011), UHCL received authority to offer lower division courses to freshman and sophomore students. This authority for downward expansion is a key component to expanding access to higher education and enhancing student success, which are key goals in the state's higher education plan Closing the Gaps by 2015. UHCL will join our UH System sister institutions by providing an additional entry point for access to higher education. As a system of institutions, we will be better able to meet the needs of our students in the greater Houston region by working closely with both area school districts and community colleges.

In preparation for serving freshmen and sophomores, efforts will focus on the establishment and funding of several aspects of student instruction and support that have previously not been a part of the campus and on the enhancement of several existing services. The highest priorities are curriculum development and the hiring of new faculty to teach core courses, development of a first year seminar, establishment of a testing center and staffing for a central advising center to guide students successfully through their first 45 hours. Expanding services in the following existing departments, Recruiting, Financial Aid and the Student Success Center (tutoring) are essential to meet the needs of these first time students and ensure a successful first year experience.

759 University of Houston - Clear Lake

An additional implementation obstacle is the shortage of appropriate space in the core of campus to house faculty, staff and these new departments. The planned addition of science labs to meet the core requirements and the need for larger classrooms, along with space needs mentioned above, necessitates moving many of the university's back office operations off-campus. These vacated spaces will be repurposed to meet the needs of this new population of students prior to their planned arrival in Fall 2014.

Center for Autism and Developmental Disabilities

UH-Clear Lake is requesting exceptional item funding for the Center for Autism and Developmental Disabilities which was established in 2008. The Center currently has contracts for services with local school districts as well as local and state agencies. The local school districts include Clear Creek ISD, Pasadena ISD and Pearland ISD. Goose Creek ISD and Channelview ISD have approached UHCL about possible contracts. At the present time, the demand for services outstrips the capacity to provide the services to an increased number of children afflicted with autism and other developmental disabilities. More than 200 families are currently waiting for services through the Center.

Funds for materials, equipment, student stipends and staff support will provide the Center with the much-needed infrastructure to attract additional funding from national agencies such as National Institutes of Health and the Department of Education and expand vital services to an increased number of children afflicted with autism and other developmental disabilities. With sustained support from the state of Texas and project funding from other sources, some of the additional services which the Center would be able to provide include: parent training workshops, expanded intensive therapy services to children below the age of 3 years, social skills training for adolescents and adults with high-functioning autism, web-based, multi-media services to provide training to teachers and parents across the state and nationwide, and expanded research into the science of disabilities and the best teaching methods for children afflicted with autism and other neurodevelopmental disabilities.

Houston Partnership for Environmental Studies

The Houston Partnership for Environmental Studies is a special item which funds the Environmental Institute of Houston (EIH), a joint project of UH-Clear Lake, University of Houston, agencies, businesses and environmental organizations. EIH provides research funding for faculty and students at both universities in four focus areas: pollution prevention, natural resource conservation, environmental public policy, and social/cultural issues related to the environment. The focus of current research is to empower communities with technical tools to increase resiliency to disasters such as chemical spills, storms, flooding, and drought, while minimizing losses to critical ecosystem services including water quality treatment, fisheries production, flood mitigation, and transportation. Additional funding will be used primarily to support additional staff engaged in research and outreach, to enhance faculty seed grant funding to increase competition for external funding, and to acquire more resources including laboratory and field research equipment.

Tuition Revenue Bonds

The University of Houston-Clear Lake requests tuition revenue bonds for a Science and Academic Support Building and a Student Access and Classroom Building.

Science and Academic Support Building

In an effort to meet UH-Clear Lake's commitment to student success and academic excellence for freshman and sophomore students, a new 160,000 gross square foot facility will be needed by spring 2017, following implementation of downward expansion in fall 2014. Enrollment is projected to increase approximately 21% from

Administrator's Statement

759 University of Houston - Clear Lake

current enrollment in the 1st 3 years of downward expansion. A major goal is to provide adequate teaching laboratories for freshman and sophomore science courses, provide two minimum 100-seat lecture halls to accommodate the larger core curriculum classes typically needed by undergraduates in the first two years, add permanent faculty and staff offices and provide additional facilities to support research and academic programs in the STEM fields, including the professional development of teachers and increasing the number of new science and math educators. In addition to construction of the Science and Academic Support Building, this project will require renovation of approximately 30,000 square feet of existing facilities to meet the space needs for staff functions required to support the downward expansion initiative. In the short term, temporary off-campus lease space can be utilized to provide office space for back-office functions to accommodate the on-campus space needs.

Student Access and Classroom Building

In an effort to meet UH-Clear Lake's commitment to student success and academic excellence for freshman and sophomore students, a new 117,500 gross square feet facility will be needed by fall 2018, following implementation of downward expansion in fall 2014. Enrollment is projected to increase approximately 21% from current enrollment by fall 2017. The Student Access and Classroom Building will address many needs of UHCL. The major goal is to establish a one-stop enrollment management center. Included in the space will be financial aid, admissions, student records, cashiers, an Academic Advising Center, a Testing Center and a large theatre style seating room for orientation and community functions, all in an exciting environment that is welcoming to first-time visitors and new students. By relocating the enrollment management functions currently housed in the Student Services and Classroom Building (SSCB), space will be released in the SSCB to allow student support services, required to meet the demands of our new freshmen and sophomores, room to grow. A second goal is to provide 30,000 square feet to add additional classrooms and faculty offices and establish a new location at the campus "front door" to house the Police Department.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

(1) - Formula funded strategies are not requested in 2014-15 because amounts are not determined by institutions.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

The High Technology Laboratory uses a collaborative model of research and development to enhance training and education of engineers, computer scientists, natural science, and to develop and transfer new technology to the Texas economy. The funds are spent on salaries, laboratory equipment and supplies needed to conduct research. The lab was created in FY83 as a project of the university and funded in FY84 as a special item. The mission is to integrate research and development activities in computer technology, information technology, electro-optical technology and telecommunications with the R&D needs of the U.S. Space Program.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

After the cancelation of NASA's Constellation Program by Obama administration and shifting the operational activities of NASA to private sectors, with the goal of focusing NASA's efforts more towards reaching planet Mars and beyond, there is an opportunity for NASA JSC to reestablish itself as a "Research and Development Center" rather than an "Operational Center". NASA/JSC can once again become our nation's hope for the future of the human exploration, research and development of space. The High Tech Lab provides an objective mechanism for conducting and reporting the needed research to reduce the Mission and Safety Critical risks of required computing and communications systems. Continued funding will ensure the continued development and support of joint research among NASA, UHCL, aerospace contractors and other industries. Any cyber sabotage or subversive acts will dramatically impact our region and ultimately economy of our State.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This special item funds the Environmental Institute of Houston (EIH), a partnership among the University of Houston-Clear Lake, University of Houston, agencies, businesses and environmental organizations. EIH supports research, professional development for teachers & professionals, and broad based participatory efforts for environmental issue resolution. EIH provides research funding for faculty & students at both universities in four focus areas: pollution prevention, natural resource conservation, environmental public policy, and social/ cultural issues related to the environment. Balanced environmental education is an important activity and an outcome of this research effort. The focus of current research is to empower communities with technical tools to increase resiliency to disasters such as chemical spills, storms, flooding, and drought, while maximizing losses to critical ecosystem services including water quality treatment, fisheries production, flood mitigation, and transportation. Many state & federal agencies partner with EIH in research or education projects because our combined expertise enhances the services provided to the citizens of Texas. Ties with industry and environmental organizations permit EIH to facilitate dialog about environmental issues. EIH works toward a sustainable future by incorporating the views of all stakeholders and the breadth of university expertise from humanities to science. No other organization participating in resolution of environmental issues in Southeast Texas has the scientific & scholarly credibility and objectivity of EIH.

CODE	DESCRIPTION	Exp 2011	Est 2012	Bud 2013	BL 2014	BL 2015
-------------	--------------------	-----------------	-----------------	-----------------	----------------	----------------

Southeast Texas is a natural laboratory for studying the balance of economic development and environmental quality. Large industrial complexes are located adjacent to large human populations and surrounded by sensitive natural resources. The region has a long history of environmental disputes, but has gained a national reputation for broad-based consensus approaches to environmental planning and issue resolution. EIH is the major interface between the community and the UH System for participation in environmental discussions, e.g. bacteria reduction strategies. The emphasis on education reform has provided an impetus for enhancement of environmental education (EE) in Texas. EE is a strategy for improving student motivation and performance and enhance critical thinking skills needed for future science and technology careers. Agencies and businesses are less likely to have personnel to devote to environmental education activities. The services of EIH are in high demand for professional development of teachers and environmental professionals.

DESCRIPTION / JUSTIFICATION:

During the 82nd Legislature (2011), UHCL received authority to offer lower division courses to freshman & sophomore students. This authority for downward expansion is a key component to expanding access to higher education & enhancing student success, which are key goals in the state's higher education plan Closing the Gaps by 2015. UHCL will join our UH System sister institutions by providing an additional entry point for access to higher education. As a system of institutions we will be better able to meet the needs of our students in the greater Houston region. This authority will provide UHCL the opportunity to recruit students from the local high schools & offer scholarship programs to attract high caliber students.

In preparation for this first year of admittance, efforts will focus on the establishment & funding of several aspects of student instruction & support that have previously not been a part of the campus & on the enhancement of several existing services. The highest priorities are curriculum development & the hiring of new faculty to teach core courses, development of a first year seminar, establishment of a testing center & staffing for a central advising center to guide students successfully through their first 45 hours. Expanding services in the following existing departments, Recruiting, Financial Aid & the Student Success Center (tutoring) are essential to meet the needs of these first time students & ensure a successful first year experience.

An additional implementation obstacle is the shortage of appropriate space in the core of campus to house faculty, staff & these new departments. The planned addition of science labs to meet the core requirements and the need for larger classrooms, along with space needs mentioned above, necessitates moving many of the university's back office operations off campus. These vacated spaces will be repurposed to meet the needs of this new population of students prior to their planned arrival in Fall 2014.

DESCRIPTION / JUSTIFICATION:

Debt Service Payment for 2 Buildings:

While the principal and interest debt service for new Tuition Revenue Bonds is being requested here, any amounts appropriated should be at UH System Administration.

Science and Academic Support Building: A new 160,000 gross sq. ft. facility will be needed by spring 2017, following implementation of downward expansion in fall 2014.

Enrollment is projected to increase approx. 21% from current enrollment by fall 2017. The projected space deficit in fall 2017 will exceed 33% of the available sq. footage.

UHCL exceeded the THECB targeted SUE combined score of 150 in fall 2011 and will continue to pursue high space utilization of this new facility. A major goal is to provide labs for science courses, provide two 100-seat lecture halls to accommodate large core curriculum classes, add faculty and staff offices and provide add'l facilities to support research and acad programs in the STEM fields. This project will require renovation of approx. 30,000 sq. ft. of existing facilities to meet the space needs for staff functions required to support this initiative.

Student Access and Classroom Building: A 117,500 sq. ft. bldg. will be needed by fall 2018. Enrollment is projected to increase approx. 21% from current enroll by fall 2017. With approval of priority 1 TRB item (the Science and Acad Support Bldg), the projected deficit will still exceed 12.6% of the available sq. footage. Completion of this bldg. will not completely eliminate the projected space deficit. A major goal for this bldg. is to establish a 1-stop enroll mgmt center. Includes fin aid, admissions, student records, cashiers, Acad Advising Ctr, Testing Ctr and theatre style seating room for orientation/community functions. Space vacated in Student Services Classrm Bldg will provide space for student support services. A 2nd goal is to provide 30,000 sq. ft. to add classrooms, faculty offices and relocate the Police Dept.

DESCRIPTION / JUSTIFICATION:

Established in March 2008, the UHCL Center for Autism and Developmental Disabilities (CADD) is staffed by faculty and students in the Applied Behavior Analysis, School Psychology, and Family Therapy graduate programs. The Center's goals are to support research on autism and developmental disabilities, train current and future professionals to serve as leaders in the fields of psychology and education, and provide services to children and their families through partnerships with area school districts and community organizations. Current Center activities include school-based consultation for teachers of children with autism and developmental disabilities, clinic-based intensive behavior therapy for children with autism ages 3 to 8, clinic-based language therapy and parent training for individuals of any age with a neurodevelopmental disability, clinic-based assessment and intervention for severe behavior disorders, a parent education program for Spanish-speaking families, and comprehensive diagnostic assessments for children suspected of having a disability. The Center currently partners with a number of public and private agencies and foundations to provide these services, including the Texas Department of Assistive and Rehabilitative Services, Autism Speaks, the Brown Foundation, the Simmons Foundation, and the George and Mary Josephine Hamman Foundation.

Funds for materials, equipment, student stipends, and staff support will provide the Center with the much-needed infrastructure to attract additional funding from national agencies such as National Institutes of Health and the Department of Education and expand vital services to an increased number of children afflicted with autism and other developmental disabilities. More than 200 families are currently waiting for services through the Center. The school districts include Clear Creek ISD, Pasadena ISD and Pearland ISD. Goose Creek ISD and Channelview ISD have approached UHCL about possible contracts.

CODE	DESCRIPTION	Excp 2014	Excp 2015
-------------	--------------------	------------------	------------------

The focus on research and services for individuals with autism has exploded both nationally and locally. A recent report by the Centers for Disease Control and Prevention found that 1 in 88 children have an Autism Spectrum Disorder (ASD) and 1 in 6 children have a developmental disability. The Texas Health and Human Services Commission estimates that ~50,000 children in TX have an ASD, with the majority residing in the Gulf Coast and Metroplex Regions. The demand for services also is expected to increase in Texas as a result of a state law passed in 2007, which requires health plans to provide coverage for autistic children two to six years of age (Tex. Stat. Ann. § 1355.015). Nonetheless, Texas has a serious shortage of individuals who are qualified to work with this population. As the 4th most populous city in the U.S., Houston is well positioned to advance research, training, and treatment through a university-based Center for Autism and Developmental Disabilities. University of Houston-Clear Lake has already secured more than \$1 million in contracts from local school districts, foundations, and state agencies since August 2005 to provide treatment, training, and services to individuals with autism and their caregivers.

DESCRIPTION / JUSTIFICATION:

This special item funds the Environmental Institute of Houston (EIH), a partnership among the University of Houston-Clear Lake, University of Houston, agencies, businesses & environmental organizations. EIH supports research, professional development for teachers & professionals, and broad based participatory efforts for environmental issue resolution. EIH provides research funding for faculty & students at both universities in four focus areas: pollution prevention, natural resource conservation, environmental public policy, & social/ cultural issues related to the environment. Balanced environmental education is an important activity & an outcome of this research effort. The focus of current research is to empower communities with technical tools to increase resiliency to disasters such as chemical spills, storms, flooding, & drought, while minimizing losses to critical ecosystem services including water quality treatment, fisheries production, flood mitigation, and transportation. Many state and federal agencies partner with EIH in research or education projects because our combined expertise enhances the services provided to the citizens of Texas. Ties with industry and environmental organizations permit EIH to facilitate dialog about environmental issues. EIH works toward a sustainable future by incorporating the views of all stakeholders and the breadth of university expertise from humanities to science. No other organization participating in resolution of environmental issues in Southeast Texas has the scientific and scholarly credibility and objectivity of EIH.

Local communities and educators have identified the need for additional infrastructure to enhance research and technical support in the areas of ecosystem analysis to address critical regional environmental problems including increasing community resiliency and maintaining ecosystem services. Addition of database staff alone and critical instrumentation would increase external funding by 50% alone.

University of Houston - Clear Lake

CODE	DESCRIPTION	Excp 2014	Excp 2015
	<p>Southeast Texas is a natural laboratory for studying the balance of economic development and environmental quality. Large industrial complexes are located adjacent to large human populations and surrounded by sensitive natural resources. The region has a long history of environmental disputes, but has gained a national reputation for broad-based consensus approaches to environmental planning and issue resolution. EIH is the major interface between the community and the UH System for participation in environmental discussions, e.g. bacteria reduction strategies. The emphasis on education reform has provided an impetus for enhancement of environmental education (EE) in Texas. EE is a strategy for improving student motivation and performance and enhance critical thinking skills needed for future science and technology careers. Agencies and businesses are less likely to have personnel to devote to environmental education activities. The services of EIH are in high demand for professional development of teachers and environmental professionals.</p>

	Total Expenditures		40.1%		\$4,585,355	\$11,424,237		26.1%		\$5,307,216	\$20,337,116

B. Assessment of Fiscal Year 2010 - 2011 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained or exceeded two of five, or 40% of the applicable statewide HUB procurement goals in fiscal year 2010. The agency attained or exceeded one of five, of 20% of the applicable statewide HUB procurement goals in fiscal year 2011.

Applicability:

The "Heavy Construction" category does not apply to agency operations in fiscal year 2010 or 2011. The University of Houston System handles all heavy construction projects for the entire system and are not procured by agency.

Factors Affecting Attainment:

The "Special Trade" category for FY2010 subcontracting opportunities was awarded to a HUB with total expenditures of 61.4%. FY2011 building renovations was awarded to a non-hub and only had a 10.1% for HUB subcontracting opportunities. In the "Commodity" category the total spent with all HUBs for 2010 was 53.8% and 2011 was 54.6%. Overall expenditures with HUBs for the agency for 2010 was 40.1% and 2011 was 26.1%.

"Good-Faith" Efforts:

Agency sponsors annual HUB Fair to promote HUBs to University departments and within community. Included in Purchasing training is information regarding the use of HUBs when they are available. Exhibit at HUB procurement expos sponsored by the Houston Minority Business Council (HMBC) and City of Houston. Attend HUB discussion meetings to keep up with HUB regulations. FY2010 agency was ranked seventh (7th) for agencies spending more than \$5 million with the largest percentages spent with HUBs. Encouraged HUBs to become state certified.

10 % REDUCTION

83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: 8/21/2012

Time: 9:42:25AM

Agency code: 759 Agency name: University of Houston - Clear Lake

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2014	2015	Biennial Total	2014	2015	Biennial Total	
1 High Technologies Laboratory							
Category: Programs - Service Reductions (Other)							
Item Comment: Reduction to operating expenses that are used for supporting new research activities. A reduction could impact the ability to leverage funding for new research.							
Strategy: 3-2-1 High Technologies Laboratory							
<u>General Revenue Funds</u>							
1 General Revenue Fund	\$0	\$0	\$0	\$4,500	\$4,500	\$9,000	
General Revenue Funds Total	\$0	\$0	\$0	\$4,500	\$4,500	\$9,000	
Item Total	\$0	\$0	\$0	\$4,500	\$4,500	\$9,000	
FTE Reductions (From FY 2014 and FY 2015 Base Request)							
2 Environmental Studies Partnership							
Category: Programs - Service Reductions (Other)							
Item Comment: The ability to compete for external funding would be severely compromised. Teacher training programs in environmental sciences would be cut which would directly affect the ability of teachers to administer science programs designed to meet the mandates of the "no child left behind" initiative. Valuable services to the community including technical outreach and applied research would be reduced. Based on these projected cuts there could be staff reductions which would include teacher trainers and scientific support staff.							
Strategy: 3-2-2 Houston Partnership for Environmental Studies							
<u>General Revenue Funds</u>							
1 General Revenue Fund	\$0	\$0	\$0	\$15,000	\$15,000	\$30,000	
General Revenue Funds Total	\$0	\$0	\$0	\$15,000	\$15,000	\$30,000	
Item Total	\$0	\$0	\$0	\$15,000	\$15,000	\$30,000	
FTE Reductions (From FY 2014 and FY 2015 Base Request)

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2014	2015	Biennial Total	2014	2015	Biennial Total	
3 Worker's Compensation Insurance							
Category: Administrative - Operating Expenses							
Item Comment: Reductions in coverage in the university comprehensive insurance program.							
Strategy: 1-1-4 Workers' Compensation Insurance							
<u>General Revenue Funds</u>							
1 General Revenue Fund	\$0	\$0	\$0	\$16,000	\$16,000	\$32,000	
General Revenue Funds Total	\$0	\$0	\$0	\$16,000	\$16,000	\$32,000	
Item Total	\$0	\$0	\$0	\$16,000	\$16,000	\$32,000	
FTE Reductions (From FY 2014 and FY 2015 Base Request)							
4 Hold Harmless							
Category: Programs - Service Reductions (Other)							
Item Comment: This funding has been critical to maintain core operations. Loss of funding would have a negative impact on academic programs, delivery of instruction, student access and success. This would include the loss of four academic programs and a 20% reduction to summer school offerings, which would increase time to graduation for students.							
Strategy: 1-1-8 Hold Harmless							
<u>General Revenue Funds</u>							
1 General Revenue Fund	\$0	\$0	\$0	\$280,000	\$281,924	\$561,924

Schedule 8A: Tuition Revenue Bond Projects
 83rd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 8/21/2012
 TIME: 9:42:28AM

Agency 759 University of Houston - Clear Lake

Project Priority:	Project Code:	Tuition Revenue Bond Request	Total Project Cost	Cost Per Total Gross Square Feet
1	1	\$ 75,600,000	\$ 75,600,000	\$ 398
Name of Proposed Facility:	Project Type:			
Science and Academic Support Building	New Construction/Renov			
Location of Facility:	Type of Facility:			
University of Houston-Clear Lake	E&G			
Project Start Date:	Project Completion Date:			
01/01/2014	01/01/2017			
Gross Square Feet:	Net Assignable Square Feet in Project			
190,000	114,000			

Project Description

A new 160,000 gross sq. ft. facility will be needed by spring 2017, following implementation of downward expansion in fall 2014. Enrollment is projected to increase approx. 21% from current enrollment by fall 2017. The projected space deficit in fall 2017 will exceed 33% of the available sq. footage. With the addition of this building, UHCL will still be operating with a projected deficit in excess of 12.6% of available sq. footage. UHCL exceeded the THECB targeted SUE combined score of 150 in fall 2011 and will continue to pursue high space utilization of this new facility. A major goal is to provide labs for science courses, 2 100-seat lecture halls to accommodate larger core curriculum classes, add faculty and staff offices and provide add'l facilities to support research and academic programs in the STEM fields. This project will require renovation of approx. 30,000 sq. ft. of existing facilities to meet the space needs for staff functions required to support this initiative.

Schedule 8A: Tuition Revenue Bond Projects
 83rd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 8/21/2012
 TIME: 9:42:28AM

Agency 759 University of Houston - Clear Lake

Project Priority:	Project Code:	Tuition Revenue Bond Request	Total Project Cost	Cost Per Total Gross Square Feet
2	2	\$ 40,870,000	\$ 40,870,000	\$ 348
Name of Proposed Facility:	Project Type:			
Student Access and Classroom Building	New Construction			
Location of Facility:	Type of Facility:			
University of Houston- Clear Lake	E&G			
Project Start Date:	Project Completion Date:			
06/01/2015	08/01/2018			
Gross Square Feet:	Net Assignable Square Feet in Project			
117,500	70,500			

Project Description

A 117,500 sq. ft. bldg. will be needed by fall 2018. Enrollment is projected to increase approx. 21% from current enrollment by fall 2017. The projected space deficit in fall 2017 will exceed 33% of the available sq. footage. With approval of the priority 1 TRB item (the Science and Acad Support Bldg), the projected deficit will still exceed 12.6% of the available sq. footage. Completion of this bldg. will close, but not completely eliminate the projected space deficit. A major goal for this bldg. is to establish a 1-stop enroll mgmt center. Includes fin aid, admissions, student records, cashiers, Acad Advising Ctr, Testing Ctr and theatre style seating room for orientation/community functions. Space vacated in the Student Services Classroom Bldg will provide space for student support services. A 2nd goal is to provide 30,000 sq. ft. of add'l classrooms, faculty offices and relocate the Police Dept.

		<i>Subtotal</i>	\$10,604,808	\$0		

759 University of Houston - Clear Lake

Special Item: 1 **Houston Environmental Studies Partnership**

(1) Year Special Item: 1994

(2) Mission of Special Item:

The mission is to help people in Houston and the Southeast and coastal Texas region participate more effectively in environmental improvement. Information and technology will be obtained and disseminated from research supported by the Environmental Institute of Houston (EIH) in critical areas including pollution prevention, natural resource conservation, and related public policy and societal issues. EIH will seek to expand balanced environmental education based on objective scholarship to empower the entire community to make sound decisions on environmental issues.

(3) (a) Major Accomplishments to Date:

EIH has developed significant partnerships among two universities and a variety of community organizations. 1. UH and UHCL researchers have leveraged over 290 small seed grants into over \$9.0 million in grant and contract funding. 2. Environmental educators on the EIH staff train more teachers in national Environmental Education (EE) curricula than any other university in Texas. 3. EIH staff manage stakeholder efforts on all significant issues in the Houston and Southeast Texas region: air pollution, water pollution, flooding and freshwater supply. 4. EIH researchers are actively working through interagency contracts with local planning and state agencies to conduct water and air quality monitoring in local watersheds and schools. EIH has also assisted through contracts and grants various state and federal agencies including TCEQ, TPWD, EPA, TRA, TWDB, USFWS, and Harris County ,Galveston Bay Estuary Program and Galveston Bay Foundation.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The history of EIH has established a trajectory for future accomplishments. 1. More research projects focused on the critical issues of the Houston and Southeast Texas region, including helping state and local agencies and organizations solve water quantity and water quality problems affecting human health and aquatic organisms, 2. New environmental education efforts in air quality, science curriculum including training on a EIH curriculum for middle and high school teachers, 3. Expanded involvement with local and regional community organizations and state, national and international efforts dealing with local sustainability, resiliency, environmental and conservation issues, 4. Expanded use of the EIH website for dissemination of valuable information on regional issues, 5. Expanded GIS, laboratory and database support for local communities and 6. Increased matching extramural grants in the amount of \$500K to \$1M per year.

(4) Funding Source Prior to Receiving Special Item Funding:

Corporate gifts and recovered indirect costs.

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

2008	\$650,000	Contract & Grants
	\$120,000	Donations
2009	\$727,000	Contracts & Grants
	\$ 6,000	Donations

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

8/21/2012 9:42:28AM

759 University of Houston - Clear Lake

2010	\$725,000	Contracts & Grants
	\$ 6,000	Donations
2011	\$630,500	Contracts & Grants
	\$ 2,500	Donations
2012	\$412,591	Contracts & Grants
	\$ 25,825	Donations

(7) Consequences of Not Funding:

If the institute was not funded, UHCL/UH and the state will likely lose up to \$3M annually in non-general revenue funding secured by the various P1 investigators at UH, UHCL and EIH which are partially supported by state funds that enable EIH to maintain a minimum level of funding for supporting key staff and start-up grants. EIH is also involved with numerous (>15) projects that support local government, schools and the community at large. There is no other organization that provides these educational, outreach and technical support programs. A total of 1,800 teachers and over 118,000 K-12 students would not be provided essential STEM environmental education skills and training. A total of 28 faculty who received seed funds in the amount of \$340 generated over \$560K as a direct result of these start-up funds for their project during 2009 and 2010. Due to the 29.7% cut in funding a total of \$100K per year of external funds would not be generated. The bottom line is funds provided to EIH generate a 100 to 500% return in their investment in terms of additional federal and private grant/ contract funds. Various local, state and federal agencies provide funding to EIH to support applied research needs within the State of Texas. These project funds have provided support for over 30 graduate and 20 undergraduate students during most fiscal years.

759 University of Houston - Clear Lake

Special Item: 2 **High Technologies Laboratory**

(1) Year Special Item: 1984

(2) Mission of Special Item:

The lab was created in FY83 as a project of the university and funded in FY84 as a special item. The mission is to integrate research and development activities in computer technology, information technology, electro-optical technology and telecommunications with the R&D needs of the U.S. Space Program.

(3) (a) Major Accomplishments to Date:

UHCL formed a partnership with NASA and its contractors to propose to DARPA that NASA JSC and UHCL jointly become one of the first ten beta test sites in the world for the newly specified Ada language. We were to evaluate if it would be appropriate for use in developing the International Space Station government and academia in the evaluation of this capability. The team identified a potentially fatal flaw in the language specification - the omission of an adaptable runtime support environment. NASA then funded UHCL to lead another international research team to specify this critical element. The result led to the international recognition of UHCL as a leader in the new field of Software Engineering. NASA accepted the recommendations of the team and chose to use both the language and the runtime support environment for the development of the ISS. This assured that the lead center for ISS development would be JSC. NASA then funded UHCL to help create a MS degree in Software Engineering (SWEN) which was done in conjunction with the Software Engineering Institute at Carnegie Mellon University. The MS in SWEN program at UHCL was one of the first in the nation. NASA then funded UHCL in the creation of RICIS. RICIS resulted in attracting over \$70M of federal and private R&D dollars to the University of Texas.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The additional funding requested will contribute to the continued development of the joint research among NASA, UHCL and the area aerospace contractors. Additionally, we will continue developing customized web-based training courses, developing virtual laboratories for web-based courses, and recruiting and mentoring STEM area workforce.

(4) Funding Source Prior to Receiving Special Item Funding:

1-time university funds were provided for start up.

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

The vast majority of the estimated \$70M of High Tech Lab enabled R&D funds referenced above did not come from general revenue sources of the state of Texas. Instead, it came from NASA HQ (multiple codes), NASA JSC (multiple codes), DARPA, DOD, DISA, AJPO, DOE and many private industries including IBM, Boeing, Lockheed, Rockwell, et al.

(7) Consequences of Not Funding:

If this item is not funded, it could significantly impede the continued development of the joint research among NASA, UHCL and the area aerospace contractors.

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

8/21/2012 9:42:28AM

759 University of Houston - Clear Lake

Special Item: 3 **Institutional Enhancement**

(1) Year Special Item: 2000

(2) Mission of Special Item:

The mission of Institutional Enhancement is to provide institutions the ability to address critical needs that could not be met with previous formula allocations.

(3) (a) Major Accomplishments to Date:

The funding of this special item has allowed UHCL to:

- establish new academic program initiatives
- refine marketing efforts by increasing effectiveness and efficiency through media usage
- improve processes and increase efficiency through the creation of new position, programs and activities.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continued funding would provide the ability to maintain and enhance the initiatives established in FY2000.

(4) Funding Source Prior to Receiving Special Item Funding:

N/A

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

N/A

(7) Consequences of Not Funding:

Positions, programs and activities would need to be eliminated if other sources of funding could not be identified.
