

Bayou CCAP Construction Update

May 15, 2025

Architect: Cannon Design

Builder: Kitchell Construction

Completed Milestones:

- Design Documents
- Construction Documents – Notice to Proceed

In Progress:

- Construction Documents
- Site Planning
- Office Relocations
- Lab Clean-Outs and Relocations

Next Steps:

- GMP Contract signing by the Chancellor's Office
 - Kitchell Construction moves onto site
-
- Preparation for the Bayou CCAP Project has started in the form of Research and Teaching Lab cleanouts and packing for office relocations.
 - The College of Science and Engineering, with assistance from FMC Environmental Health and Safety, has started cleaning out and packing up labs on Bayou third floor in preparation for moving these activities to other locations around campus.
 - The College of Business is preparing to have faculty relocate from the Bayou 3321 Suite into other existing CoB office areas. Math and Biology faculty from CSE will relocate from the Bayou 3525 and 3521 areas into the 3321 Suite as soon as the CoB has moved out.
 - Not to be left out, The Neumann Library has made space ready in a part of their portion of the third floor for the addition of two new classrooms.
