Graduating Student Survey Fall 2020 Summary

The purpose of the Graduating Student Survey is to determine the level of satisfaction of graduating students of their higher education experience at the University of Houston-Clear Lake (UHCL). Secondly, this survey solicits graduating student's opinions regarding topics relevant to the university, ensuring that UHCL maintains the highest quality of instruction and support for success. The percentage of students who would recommend UHCL to family or friends is included in the UHCL progress card each year and is on the next page. The online Graduating Student Survey is conducted in fall and spring semesters using Qualtrics survey software. UHCL launched its semi-annual survey to graduating students for Fall 2020 on October 26, 2020, and the survey was active through December 31, 2020. All students who applied for graduation during the Fall 2020 semester received an invitation to complete the survey. The data is divided by college, degree level, gender, ethnicity, program, or any of the above combinations. The Median completion time for this survey is 7.1 minutes. A summary of data collected in the Graduating Student Survey Fall 2020 by UHCL and by individual schools are contained below.

The final reports are posted online under Graduating Student Survey:
