# ALLY

Basics

Accessible content is better content

Your class is full of diverse students with unique learning abilities. Providing them with more accessible original content means they can choose formats that work best for them: HTML for improved reading on mobile phones, Electronic Braille for the visually impaired, and Audio for learning on the go. Ally automatically scans your original content, and performs a series of steps to make them more accessible.

Alternative Formats

Ally automatically generates these "Alternative Formats" for all your course files, and makes them available for download to you and your students. Your original file will not be affected by the alternative formats.

Download alternative formats ▾   ✕

- **OCRed PDF**
  Automatically extracted text for improved reading and searching

- **HTML**
  For viewing in the browser and on mobile devices

- **ePub**
  For reading as an e-book on an iPad and other e-book readers

- **Electronic braille**
  BRF version for consumption on electronic braille displays

- **Audio**
  MP3 version for listening

- **Translated version**
  A machine translated version of the original document

By downloading an alternative format, you agree with the Terms of Use

Ally Indicators

Ally integrates with your institution's learning management system, and provides feedback within your course workflow. Log-in to your course site, and you will find the Ally indicators next to files or content. If you have no course files yet, upload one, and an indicator will appear next to the file name. Click the indicator to view your accessibility feedback. Follow along step-by-step to improve your original file.

Needs help!   A little better   Almost there   Perfect!
