Fall Schedule

Fall Class Schedule

- Summer 2021 Schedule- continuation of the current 4 modes of instruction.
- Fall 2021 Schedule- returned to the pre-pandemic modes of instruction.
- Asked colleges to plan for a fall semester where we anticipated classrooms closer to normal occupancy and the continued use of PPE (e.g. masks).
- Importantly, we stated we will monitor conditions now through early summer before finalizing the schedule with the understanding that we would make changes in the modes of instruction if conditions do not improve.

We are moving in the right direction but we must remain vigilant.

- More than one-third of U.S. adults — about 90 million people — have received at least one shot of a coronavirus vaccine.
- Nearly every state has announced that it will meet President Biden’s directive to make all adults eligible by May 1.
- The exact threshold for herd immunity for the coronavirus is unknown, but recent estimates range from 70 percent to 90 percent. If the U.S. can continue at the current rate of vaccination, about 2.68 million doses per day on average, that point could be reached by mid-July.
- Case numbers remain high — an average of [60,545 cases per day](#) over the past week
