AFLAC GROUP CRITICAL ILLNESS

Aflac can help ease the financial stress of surviving a critical illness.

Chances are you may know someone who's been diagnosed with a critical illness. You can't help notice the difference in the person's life—both physically and emotionally. What's not so obvious is the impact a critical illness may have on someone's personal finances.

That's because while a major medical plan may pay for a good portion of the costs associated with a critical illness, there are a lot of expenses that may not be covered. And, during recovery, having to worry about out-of-pocket expenses is the last thing anyone needs.

That's the benefit of an Aflac Group Critical Illness plan.

It can help with the treatment costs of covered critical illnesses, such as a heart attack or stroke.

More importantly, the plan helps you focus on recuperation instead of the distraction of out-of-pocket costs. With the Critical Illness plan, you receive cash benefits directly (unless otherwise assigned)—giving you the flexibility to help pay bills related to treatment or to help with everyday living expenses.

What you need, when you need it.

Group critical illness insurance pays cash benefits that you can use any way you see fit.

AFLAC GROUP HOSPITAL INDEMNITY

The plan that can help with expenses and protect your savings.

Does your major medical insurance cover all of your bills?

Even a minor trip to the hospital can present you with unexpected expenses and medical bills. And even with major medical insurance, your plan may only pay a portion of your entire stay.

That's how the Aflac Group Hospital Indemnity plan can help.

It provides financial assistance to enhance your current coverage. It may help avoid dipping into savings or having to borrow to address out-of-pocket-expenses major medical insurance was never intended to cover. Like transportation and meals for family members, help with child care, or time away from work, for instance.

The Aflac Group Hospital Indemnity plan benefits include the following:

- **Hospital Confinement Benefit**
- **Hospital Admission Benefit**
- **Hospital Intensive Care Benefit and more**

How It Works:

Aflac Group Hospital Indemnity coverage is selected.	Aflac Group Hospital Indemnity plan pays: **$1,400**
The insured has a high fever and goes to the emergency room	
The physician admits the insured into the hospital.	
The insured is released after two days.	

Amount payable was generated based on benefit amounts for: Hospital Admission ($1,000) and Hospital Confinement ($200 per day).

The plan has limitations and exclusions that may affect benefits payable. This brochure is for illustrative purposes only. Refer to your certificate for complete details, definitions, limitations, and exclusions.

BENEFITS OVERVIEW:	BENEFIT AMOUNT
HOSPITAL ADMISSION BENEFIT per confinement (once per covered sickness or accident per calendar year for each insured) Payable when an insured is admitted to a hospital and confined as an inpatient because of a covered accidental injury or covered sickness. We will not pay benefits for confinement to an observation unit, or for emergency room treatment or outpatient treatment. We will not pay benefits for admission of a newborn child following his birth; however, we will pay for a newborn's admission to a Hospital Intensive Care Unit if, following birth, he is confined as an inpatient as a result of a covered accidental injury or covered sickness (including congenital defects, birth abnormalities, and/or premature birth).	$1,000
HOSPITAL CONFINEMENT per day (maximum of 31 days per confinement for each covered sickness or accident for each insured) Payable for each day that an insured is confined to a hospital as an inpatient as the result of a covered accidental injury or covered sickness. If we pay benefits for confinement and the insured becomes confined again within six months because of the same or related condition, we will treat this confinement as the same period of confinement. This benefit is payable for only one hospital confinement at a time even if caused by more than one covered accidental injury, more than one covered sickness, or a covered accidental injury and a covered sickness.	$200
HOSPITAL INTENSIVE CARE BENEFIT per day (maximum of 10 days per confinement for each covered sickness or accident for each insured) Payable for each day when an insured is confined in a Hospital Intensive Care Unit because of a covered accidental injury or covered sickness. We will pay benefits for only one confinement in a Hospital's Intensive Care Unit at a time. Once benefits are paid, if an insured becomes confined to a Hospital's Intensive Care Unit again within six months because of the same or related condition, we will treat this confinement as the same period of confinement. **This benefit is payable in addition to the Hospital Confinement Benefit.**	$200

SUCCESSOR INSURED BENEFIT

If spouse coverage is in force at the time of the employee's death, the surviving spouse may elect to continue coverage. Coverage would continue according to the existing plan and would also include any dependent child coverage in force at the time.

In order to receive benefits for accidental injuries due to a covered accident, an insured must be admitted within six months of the date of the covered accident (in Washington, twelve months).

DEFINITIONS

Note: In New Hampshire, all mentions of "Treatment" refer to "Care".

Accidental Injury means accidental bodily damage to an insured resulting from an unforeseen and unexpected traumatic event. This must be the direct

result of an accident and not the result of disease or bodily infirmity. **A Covered Accidental Injury** is an accidental injury that occurs while coverage is in force. A **Covered Accident** is an accident that occurs on or after an insured's effective date while coverage is in force, and that is not specifically excluded by the plan.

Newborn children may be automatically covered from the moment of birth for 60 days. Newly adopted children (and foster children in North Carolina and Florida) may also be automatically covered for 60 days. See certificate for details.

Doctor is a person who is duly qualified as a practitioner of the healing arts acting within the scope of his license, and is licensed to practice medicine; prescribe and administer drugs; or to perform surgery, or is a duly qualified medical practitioner according to the laws and regulations in the state in which treatment is made.

In Montana, for purposes of treatment, the insured has full freedom of choice in the selection of any licensed physician, physician assistant, dentist, osteopath, chiropractor, optometrist, podiatrist, psychologist, licensed social worker, licensed professional counselor, acupuncturist, naturopathic physician, physical therapist, speech-language pathologist, audiologist, licensed addiction counselor, or advanced practice registered nurse.

A Doctor does not include the insured or an insured's family member. In South Dakota however, a doctor who is an employee's family member may treat the insured if that doctor is the only doctor in the area and acts within the scope of his practice. For the purposes of this definition, family member includes the employee's spouse as well as the following members of the employee's immediate family son, daughter, mother, father, sister, and brother. This includes step-family members and family-members-in-law.
